

SURGICAL PREP SOLUTION APPLICATOR SYSTEM
AND METHODS

5

Abstract of the Disclosure

Systems and methods for applying or dispensing surgical prep solution are disclosed. The applicator system includes a spreader element and a container of surgical prep solution. The spreader element includes a body with an orifice covered by a pad. The orifice is in fluid communication with a passage through an elongated stem connected to the body. The container may be collapsible with only limited recovery. 10 The spreader element may include a receptacle for receiving the container.
